Petition placard Rod Evans Centre Mirrors

By: Alissa Cirulis from: Lathlain to: Perth City Council in: City of Perth.

We would love to see mirrors installed at Rod Evans Centre to support the large dance community in Perth. Rod Evans Centre has many outstanding features. The low friction flooring, high ceilings, natural light, air conditioning and accessibility are ideal for dancers. The only thing missing is dedicated mirrors. In Perth, there is a shortage of venues with suitable floors and mirrors for dancers. Rod Evans has a very special set of features which could be used to support an activity which is so vital to connecting and enriching communities.
