Seitdem wird diese Sorte europaweit in Saatgutnetzwerken in Verkehr gebracht. Im Arche Noah Sortenhandbuch ist die Nutzung der Sorte durch etliche Personen seit dem Jahr 2000 dokumentiert. In österreichischen Saatgutnetzwerken wird sie also seit mindestens 22 Jahren vermehrt und weitergegeben ³

 ProSpecieRara and Arche Noah fully support adapted DUS and VCU test for organic varieties and believe that the introduction of heterogeneous material (OHM) and organic varieties in the new Organic Regulation were ground-breaking steppingstones that should pave the way forward for the seed marketing legislation. The mindset of the OHM notification regime should be used for inspiration in the creation of more space for different types of plant material catering to specific needs in the EU. To not further restrict the increasing demand for traditional and local varieties by consumers and farmers and align lighter requirements across the EU, there should be one lighter notification regime for diversity varieties without production or geographical limits.
