Science is stronger when we work together

I support a *#DealForScience*

What we want

Researchers need certainty on scientific collaboration between the UK and EU.

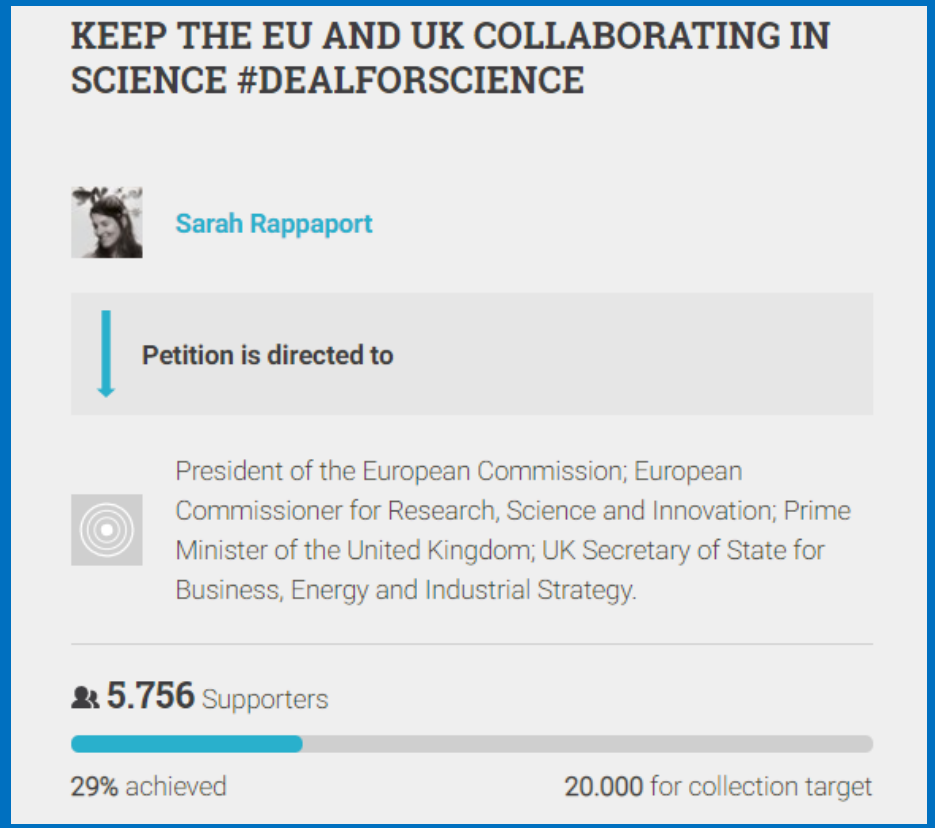
We call on the EU and the UK to sign a research and innovation agreement as soon as possible. This should include:

- A commitment by European countries to work together to make the European Research Area a world leader in science;
- Full researcher mobility between the UK and the rest of Europe for all levels and career stages;
- A commitment to collaboration, including UK associate membership of Horizon Europe;
- Co-operation on regulations that support science.

#DealForScience Petition

Together we can have more impact

- Over 5,000 researchers support a #DealForScience
- Support from every Member State – need for science collaboration is shared commitment that unites the EU.
- First hand comments on why a #DealForScience is needed.



How individuals can support

Sign the petition and share within your networks by email using the banner and on social media.

Copy for social media posts:

- *Act now to ensure science is on the Brexit agenda. Sign the petition*
- *I believe science is stronger when we work together.*
- *Knowledge and understanding do not stop at borders. I support a #DealForScience*
- *I've signed the #DealForScience. Don't miss your chance to be heard. Sign the petition*
- *I joined thousands of researchers from across the EU to support a #DealForScience. Join us to keep the UK and EU collaborating on science.*
- *I signed for* country (flag) *because every EU country agrees that science is stronger when we work together.*
