

## NEWS : MEETING ABOUT THE WIND FARM OF SCANSANO AND RENEWABLE ENERGY IN MAREMMA

A meeting has been organized to discuss together the issue of the Scansano wind farm and, more in general, the future of renewable energy in our Maremma.

The Mayor of Scansano has welcomed the initiative with enthusiasm and will be present to confront us.

DATE: FEBRUARY 28

TIME: 17:30

LOCATION: SCANSANO THEATER

This meeting will be a fundamental occasion to deepen the project and its implications, paying particular attention to the speculative aspects that might affect our territory.

But not only, more importantly we will understand together what is happening in Maremma and in many other areas of Italy.

I invite everyone to participate because it is time to let our voice be heard.

Even those who feel distant from this story today could find themselves directly involved in the very near future.
