

Purchasing power
In face of inflation, general salary increase!
right now

**Less than €70 net increase per month (17 points):
THIS IS NOT ENOUGH!**

Contrary to what HR suggests, negotiations on general wage increases have not yet been completed.

Not a single union has accepted the proposals of the HR!

A 6.2% INFLATION means (INSEE):

Pastas: +20.36%	Cooking oil: +19.35%	Toilet paper: +17.92%
Vegetables: +17.7%	Meat: +11%	Energies: +19.2%

And that, is every single day !!

etc...

**We demand a minimum salary raise of
200€ net / month (50 points) for all**

50 points means an increase of at least **10%** for salaries below €2,000net/month.
50 points also mean **5.9%** for the average salary of pasteurians.

MANAGEMENT NEEDS TO HEAR US!

Make yourself heard!
