

By: Clayton State University Students from: Morrow to: Clayton State University in: Clayton County.

Clayton State University is planning to get rid of many majors under STEAM. Most notably the Chemistry, Mathematics, Political Science, Spanish, and Theater departments. Cutting these majors will gravely impact the College of Arts and Sciences and the College of Information and Mathematical Sciences, which makes up over 40% of the student body of Clayton State. The STEM department is essential to the education of all Clayton State students regardless of their major. If the programs are cut by the University all students will be negatively impacted by the consequences.
